Jessica Vu , Torrance High School

Anthony Gildemeister – North High School: Anthony's choice of study is Mechanical Engineering. He aims to earn not only a Bachelor's Degree but also a Master's in Mechanical Engineering. He hopes to use his passion for math and science to influence the world around him. Loving both math and science, engineering is the best of both worlds. Anthony has been active volunteering and says that he hopes to instill a will of volunteering in North High students. He has been a member of the California Scholarship Federation, Hispanic Culture Club, French Club, Key Club, Spanish Honors Society, and Chess Club. In addition he has been a member of the NHS soccer team and the team captain and the most valuable player three times

Lynette Walters, CSF Advisor, writes that Anthony is a young man who exemplifies the core tenets of responsibility and volunteerism. This allows him to shine in his school environment and in the community. He has invested immense

amounts of time in our different volunteer programs on and off campus. Jay Estabrook writes that he was immediately impressed by Anthony's enthusiastic, inquisitive and humble nature. He is a top student and a great soccer player, yet he is unassuming and hard working. What Mr. Estabrook likes most about Anthony is that he has fun learning. I have seen him come in to class speaking French (his third language), then sit down to explain a calculus problem to a friend, and finally open his notes for a quiz so he is prepared when the bell rings.

Anthony's weighted GPA is 4.3947. He is taking AP Government and Politics, English Literature, Calculus, Physics and Macroeconomics. Congratulations.

Christine Pang – South High School: Christine plans to pursue a career in architecture. When describing her career plans she wrote "Architecture perfectly fulfills my intellectual desires because I am enthralled about how buildings are made and how we can fashion them aesthetically pleasing. My knowledge-hungry brain thrives on learning, and architecture is a great study to match my intellectual needs."

Christine has been an active member of KIWINS since the 9th grade. She loves volunteering with KIWINS because she has the opportunity to work with spirited, passionate and overall amazing people who are dedicated to their work. She has also been active in her church, the Molina Foundation, Torrance Community Corps, CSF, and Dance to name a few.

Christine's dance instructor Sacha Medivil wrote that she immediately knew there was something extraordinary about Christine. She has a presence that lights the room, fills the air with positive energy, and inspires everyone around her to want to be a better person. She is one of the most driven individuals I have ever met. She is thoughtful, meticulous and above all, humble.

Paula Woodward, Mathematics teacher, says that Christine is a very talented mathematics student. Her current level of work is everything a teacher could hope for, the accuracy; content knowledge and effort were top in her class. Christine has proven her ability to prioritize and organize commitments; hereby, showing an extremely high level of maturity and willingness to accept responsibility. Christine has earned all A's in her time at South.

Her weighted GPA is 4.7059 and her perfect GPA has her 1st in her class of 508. She is currently taking the following AP courses: Government and Politics, Macroeconomics, English Literature, Physics B, and Computer Science. Congratulations.

Jessica Vu – Torrance High School: Jessica plans to be a Pre-Med Biology major with her goal to become a physician. She enjoys helping others and enjoys working with children so her focus will be in pediatrics. She is interested in biology and psychology which will help to expand her knowledge.

Jessica has been a member of KIWIN'S since 9th grade and is currently the KIWIN'S president. In addition she is a member of Tartar Ladies, Class Council, National Honor Society, California Scholarship Federation, and ASB. Jessica's Spanish teacher, Jacqueline Mendoza, tells us that Jessica is hardworking, trustworthy, responsible, and honest and a reliable student. She is a great leader. She is involved and active in many school club activities and has volunteered many hours around campus and in the community. Jessica represents herself greatly through her kind words and thoughtful actions. She is very bright, determined strong individual with integrity.

Parker Bostwick, KIWIN'S Advisor and English teacher, states that he has perceived her character to be nothing short of exemplary. Her altruistic, tireless contribution as the President of the KIWIN'S Club has earned her the praise and respect of her peers and myself. There are three words to describe Jessica: Hardworking, Bubbly, and

Dedicated. Jessica is a kind resourceful and caring young woman. An interest in Jessica is an investment in our future.

Jessica has a weighted GPA of 4.4375. She is taking AP Government and Politics, English Literature, Calculus and Macroeconomics. Congratulations.

Andrea Bessey – Shery High School: Andrea plans to study cosmetology because it is her passion. She is well on her way to achieving her goal. She completed her coursework for high school graduation early and has been attending Southern California Regional Occupational Center, SoCalROC, while working part-time. She has received the cosmetology perfect attendance certificate and has completed cosmetology modules 1 and 2.

Counselor, Terry Hughes, compliments Andrea saying she is an excellent student who is reserved, capable and eager to learn. She is willing to take on new challenges and always polite. She is responsible for all of her personal and academic needs.

Jamie Jimenez, Shery High School Principal, writes that Andrea is a very determined young woman who has achieved her success on her own. When she came to Shery in December 2011, she had only 52 ½ credits but it became

quite clear early on that she was capable and was willing to do what she needed to do to make up her credits to graduate high school.

Andrea we are impressed with your determination, the amount of coursework you successfully completed in a short period of time while also working. We wish you success in the future. Congratulations.

Emiko Kranz – West High School: Emiko chosen course of study is Biology/Pre Med. She writes that she is studying in the medical field because she is interested in medical procedures and wants to help.

Emiko has been very active at West. She has been an active member in Key Club and she is a member of the California Scholarship Federation and the National Honor Society. In addition she was ASB Secretary of Publicity, served on the American Red Cross board, was a member of the soccer team and the track team, a part of Freshman Focus and Animals at Heart.

English teacher, Tracy Sprague, explains that Emiko is artistic and analytical; creative and organized; open and driven. In a course reflection, Emiko defined this goal for herself: be content with the person I have become; make a difference in the lives of those who come to know me. So, in addition to her strong critical and creative skills, Emiko has empathy – a need to use her skills to help other. Ann Cortina, Biology teacher and Academic Decathlon Coach, states that Emiko is a capable and determined student with a positive attitude and a collaborative spirit. She has contributed much to the West High and Torrance communities by virtue of her involvement in various service clubs and organizations. She is dedicated to improving the circumstances of those around her and she understands the impact that a single committed individual can have on the world around them.

Emiko's weighted GPA is 4.2985. Her AP classes this year include English Literature and Calculus. Congratulations.

Emiko Kranz Ralph Thompson Scholarship

Emiko says that she used to think high school was all about academics, but volunteering taught her that there are certain things you can't be taught – character, compassion and the like. She says that when she began volunteering with the Red Cross, she began to develop an even greater interest in contributing to the alleviation efforts around the world. Because of this interest she applied for a position on the Red Cross South Bay Districts Board as a Disaster Services Officer. A family tragedy made her see at a very young age that she had a need for giving, and a desire to help people through any hardship they were facing. This is where she says her compassion began to build. Emiko elaborated on the quote by Winston

Churchill "We make a living by what we get. We make a life by what we give" explaining that as a third grader who still didn't quite understand multiplication, to make the choice between taking what I got and running with it or providing great things to those who deserve it with the little I had. She decided to choose the latter.

Congratulations. You would make Ralph Thompson proud.

Jessica Vu

Art Callen Sprit Award Scholarship:

We know that Jessica is an active member of KIWIN'S and involved in many clubs and community volunteering. But she is also a very accomplished athlete. She has been Captain of the Varsity Tennis Team during her Junior and Senior year and has also received the Blanket Award for tennis for having excellent performance on and off the Court. She received an Academic Letter for earning a GPA of 4.4 and maintaining it for four years while pursuing athletics. She is a great example of what a young lady in today's world should be like, the whole package. So in addition to her community service and outstanding academic accomplishments we are recognizing Jessica with the Art Callen School the Athletic Spirit Award for her commitment to service and her athletic excellence. Congratulations.

CONGRATULATIONS to all the Scholarship recipients, their parents and school leaders

Thank you to Dr. Laura Love who has chaired our scholarship committee and awards luncheon for the last several years. Her dedication to the students of Torrance is remarkable.

CAL-NEV-HA DISTRICT KIWANIS FOUNDATION The "Kiwani Doctor" Program:

With the backing of an \$186,000 grant from the Cal-Nev-Ha Foundation trains doctors in the field of Pediatric Emergency Medicine. The doctors that have gone through this program then collaborated with Kiwanis Clubs to provide training in the field of pediatric trauma to paramedics, nurses and physicians in rural areas of our District. The goal of the Pediatric Emergency Medicine Fellowship is simple: Save the lives of children by training doctors about the latest in pediatric treatment. For more info go to www.cnhfoundation.org

ELIMINATE

Kiwanis eliminating maternal/neonatal tetanus

KIWANIS INTERNATIONAL FOUNDATION The ELIMINATE Project Kiwanis

International and UNICEF have joined forces to eliminate maternal and neonatal tetanus. This deadly disease steals the lives of 60,000 innocent babies and 30,000 mothers each year. The effects of the disease are excruciating tiny newborns suffer repeated, painful convulsions and extreme sensitivity to light and touch. To eliminate

MNT from the Earth by 2015, 129 million mothers and their future babies must be immunized. This requires vaccines, syringes, safe storage, transportation, thousands of skilled staff and more. Eliminating MNT from the face of the Earth will reach the poorest, most neglected mothers and babies with additional lifesaving health care. The end of this one disease means the beginning of better health for so many families. For more info go to www.kiwanis.org
